### To-day We Want to Tell You **About Our Bed Room Furniture**

In most furniture stores you'll find more space given to furniture for the parlor and dining room than given to that for the bedroom. We are different in regard to this as in many other points about selling furniture. Bedroom furniture gets just as much attention from us as furniture for any other room. The consequence is we have an exceptional showing in this particular line. No matter what may be your taste we can satisfy you.

Every new idea brought out will be found here. Every new style is here awaiting your inspection. There are pieces here to go into a very imposing room, for a typical girl's room or for a child's room. And about our prices-to settle that question we ask you to come here and acquaint yourself with ours and then go elsewhere and judge for yourself how ours compare with outside prices.
